Professional Organizations and Affiliations

Atlanta Theatre Artists for Justice (2020-2021)

A.T.A.J. started as a small group of artists hoping to rally together at BLM protests during the New Age Civil Rights Movement. We soon found ourselves heading a 1500+ coalition of artists eager to help in the fight for equality in any way possible. We provided them with a network to share daily information on current protests, a way to donate supplies, and mobile protest support units to deliver the supplies to protesters including first aid supply. Our group also gave people who weren't able to physically be on the front lines a chance to make a difference.
